Aromatherapy

1 professional spa collection

Biossentials was founded in 1999 by natural health care practitioners Dr. Lynn Lim and Joanne Bruce ND. Our name meaning '**life essentials**' reflects our belief in the **power of nature** and the purity she offers. Built on a foundation of health and wellness that balances eastern and western philosophies, Biossentials **cruelty free** spa, body and facial products are purely derived from natural botanical and mineral sources. Our products are free from animal ingredients and many are formulated with pure essential oils.

The Professional Spa Collection range provides **vibrant** treatment options for spa and beauty. Our **innovative** and **fresh approach** ensures effective botanical products that deliver results gently, as nature intended. And the versatility offered by our genuine **DIY** methods provide uniquely individual experiences thru a **customised and holistic** approach to spa treatments and services.

OUR PRODUCTS

Nature is fragrant, beautiful, pure and simple. The scent of a pine forest, the refreshing aroma of rosemary or the sweet ethereal fragrance of jasmine are nature's therapy for the senses - Aromatherapy. The vibration and energy of the **natural world** are reflected in Biossentials products and our DIY methods invite participation in the **creation of customised** spa or beauty treatments not simply scooping them ready made from a tube or jar.

Created with heart our nature inspired Professional Spa Collection range of spa, body and beauty products includes:

- 100% Pure Therapeutic Essential Oils
- 100% Pure Therapeutic Essential Oil Blends
- Aromatherapy Body & Massage Oils
- Aromatherapy Facial Care Collection
- Tropical Spa Traditional Body Treatments
- Aromatherapy Body Scrubs
- Slimming & Detox Marine Products
- Body Care Moisturising Lotions & Creams
- Foot & Hand Spa Solutions
- Hair Care Products
- Spa Accessories, Furniture, Spa Supplies

OUR SUPPORT

As a Biossentials partner you are assured of **professional support** from our helpful, friendly staff. We offer hands-on product knowledge and training as well as comprehensive professional **training manuals** to ensure you have all the information at hand to deliver the best treatments for your clients. Our popular **DVD training series** provides valuable visual support for ongoing therapist practice.

To enhance retail sales revenues our marketing support assistance provides product knowledge and awareness that will drive the best possible sales results for your operations.

OUR SERVICES

Whether you are an existing spa operation looking to revive and refresh current facilities or a new spa owner seeking expert advice and guidance our experienced in-house team offers solutions to meet your needs and expectations.

OUR COMMITMENT

Our commitment to nature is our number one priority. Created with heart, our customised spa products are produced in small batches for optimum freshness and vibrant energy. Accredited Cruelty Free, they are free from animal ingredients for your peace of mind.

Our therapeutic grade essential oils are sourced directly from growers and distillers around the world and to ensure every oil meets our strict quality commitment every batch is tested for purity and authenticity.

We care for our environment and minimise wasteful packaging practices, use recycled materials where possible and ensure our product ingredients are earth friendly.

quality commitment

At Biossentials we are passionately committed to ensuring **quality, authenticity and effectiveness** is the basis for everything that we do. Whether it is our products or our services these fundamentals together with our vibrant and fresh nature-inspired philosophy provide a simple, pure and effective approach for the spa and body care professional.

CRUELTY FREE

Our products are never tested on animals nor do they contain animal derived ingredients. We have been **Accredited Cruelty Free** since 1996. Accreditation ensures we are more than just words on a page, we actively stand by our commitment. Find out more at: www.choosecrueltyfree.org.au

INGREDIENT & PACKAGING

We take care to ensure our environmentally friendly product range does not contain harmful and irritating chemicals, artificial fragrances & colourings and petrochemical ingredients. We minimise wasteful packaging practices, use recycled materials where possible and ensure our ingredients are earth friendly.

THE QUALITY DIFFERENCE

We believe the quality difference starts at the very beginning from sourcing of authentic ingredients thru to formulating, blending, testing and finally packaging. Every step of the way a quality process ensures consistency, reliability and dependability.

Our Australian products are produced in a fully accredited T.G.A (Therapeutic Goods Administration) facility regulated by the Australian Department of Health. Stringent quality systems and regular third party audits ensure all products meet consistent quality standards. Our manufacturing facility is also accredited under the code of Good Manufacturing Practice (G.M.P.) an internationally recognised standard. All traditional products sourced within Asia are produced in G.M.P accredited facilities assuring the highest quality standards are met across our entire range of products.

More than ever before there is global shift towards increasing safety regulations including registration of consumer products, documentation and compliance requirements. Our Quality Assurance Team ensures our range meets these international standards for the highest professional expectations.

ESSENTIAL OILS

Biossentials Professional Standard essential oils are sourced directly from diverse growers and distillers around the world. Like fine wine, every genuine oil has unique characteristics including odour, viscosity and colour which will vary from year to year.

To ensure purity and authenticity every oil undergoes meticulous testing and analysis by the latest state of the art equipment including GC/MS technology. As a result, we not only guarantee the purity and authenticity of every oil in our range, we ensure full traceability by providing a batch number and use by date.

6 POINT CRITERIA FOR ESSENTIAL OILS

To meet the stringent demands of the professional aromatherapist, there are six requirements that an essential oil needs to meet so it can be used with confidence.

BIO - TYPE

Not only does an oil have to come from a defined botanical species but also from a particular genetic strain. This is particularly important when selecting from the wide variation that occurs within wild growing plants eg: *Melaleuca alternifolia*

CHEMO - TYPE

The same botanical species can often produce completely different constituents. These differences may be simple or dramatic. It is essential to have the expertise to identify and interpret this information to ensure what is being supplied to the consumer.

GEO - TYPE

Often an oil from a particular area is of a superior quality although all other factors may be the same. The oil becomes known by the area it comes from. This may be due to the environment, the genetics or the particular distillation technique.

COMPLETE OR WHOLE

The oil should be from a single distillation and should not be rectified. A few examples may be acceptable (e.g Bergamot Non-phototoxic) but they should be identified.

WILD OR ORGANIC

Where possible, wild growing plants are selected for distillation. When wild types are not available, farmers are commissioned who don't use pesticides or chemical fertilizers. Organic oils carry the approved Australian Certification from the BFA.

ANALYSIS

Every essential oil is tested in Australia with the most advanced state of art equipment in the world. This includes combining Mass Spectrometry, on-line computer searching and multi-dimensional GC.

ORGANIC CERTIFICATION

The Australian certifying body, the Biological Farmers Association (BFA) provides a certification for approved products known as the Australian Certified Organic (ACO). Globally, there are many certifying bodies; some who work in conjunction with BFA and many who do not. Thus some of our organic products may be certified outside the BFA organisation, for example ECOCERT.

A close-up photograph of a woman with her hair pulled back, a white flower tucked behind her ear. She is lying on a massage table covered with a white towel and a green sheet. Her hands are resting under her chin, and she has a soft, welcoming expression.

Welcome

to Biossentials
| professional spa collection range |

essential oils

Biossentials Spa Collection Pure Essential Oils are derived from the precious living energy of plants including flowers, needles, bark, root, fruit rinds or resin. Every Biossentials Professional Standard Therapeutic essential oil is produced from a single distillation and is not diluted, modified, blended or adulterated. Sourced directly from growers and distillers around the world every oil is meticulously analysed using the latest state-of-the-art GC-MS technology and meets strict criteria to ensure quality and authenticity. Some organically grown oils are now available. Every oil is packaged in an amber glass bottle with tamper evident seal and dripulator and includes a batch number and use by date.

- Available in professional 50ml size as indicated.
- Larger volume oils available upon request.
- 10ml size available in retail packaging

essential oil blends

Biossentials Spa Collection Aromatherapy Blends are 100% pure and natural essential oil blends especially formulated by professionals to deliver the benefits of Aromatherapy. They are available in concentrated form or ready-to-use pre-blended professional massage oils to complement the body care professional.

- Spa collection blend concentrates are available in 10ml and 50ml size with exception of Purifying Juniper & Heavenly Rose available in 50ml

BALANCE | SCMCWBAL10 / 50
with Bergamot, Clary Sage & Geranium
Balance blend contains essential oils traditionally used to **balance** and **harmonise**. Use with massage for PMS, painful periods, fluid retention. In aroma burner or bath creates a balancing mood that relaxes and soothes.

BODY TONE | SCMCBOT10 / 50
with Black Pepper, Fennel & Grapefruit
Contains essentials oils traditionally used for their **warming**, **stimulating** and **skin toning** properties. Use along with proper nutrition and exercise to tone and firm orange peel skin. Blend with carrier oil and massage daily. May alternate with Circulation blend.

BREATHE | SCMCBRE10 / 50
with Eucalyptus, Myrtle & Sea Pine
A refreshingly vibrant and cleansing blend to **soothe** and **cleanse**. For colds and flus, use as a steam tissue inhalation or dilute in carrier oil as a chest rub. Diffused in an aroma-burner for antiseptic effect and to clean the air.

BUG OFF | SCMCBUG10 / 50
with Eucalyptus, Citronella & Lemongrass
The natural remedy with oils that **defer the presence** of insects and bugs. Use in aroma burner, room spray or apply with lotion / oil when going outdoors.

JETLAG / CIRCULATION | SCMCCIR10 / 50
with Cajeput, Cypress & Petitgrain
Use with massage for sluggish circulation, congestion and after air travel. Contains essential oils traditionally used with massage as a **lymphatic** and **circulatory stimulant** and **decongestant**. Blend with carrier oil and use with lymphatic drainage massage.

CONCENTRATE | SCMCCON10 / 50
with Lemon, Peppermint & Rosemary
A great **wake-up blend** to clear and **refresh the mind**. Research indicates essential oils can enhance study, stimulate the brain and improve work efficiency. Useful wherever clarity and concentration is needed at home or office. Use in aroma burner.

SPORTS RUB / REVIVE RUB with Nutmeg, Rosemary & Tropical Basil | SCMCMUS10 / 50
Bring **warming comfort** to general aches and pains with a soothing massage. Contains essential oils traditionally used for **temporary relief of muscular tension**. Massage well into affected area. Also useful as a compress.

PEACEFUL with Lavender, Marjoram & Sandalwood | SCMCPSE10 / 50
Traditional **properties to relax, soothe** and bring a sense of calm. Great for children too. Diffuse before sleep or place on tissue near pillow.

RELAX with Lavender, Mandarin & Patchouli | SCMCREL10 / 50
For **general well-being**. **Soothing and calming properties** reflect the traditional qualities of true lavender to encourage relaxation and serenity. Nurturing and grounding properties balance and refresh the spirit.

HEAVENLY ROSE with Damask Rose, Rose Geranium & Ylang Ylang | SCMCHR10 / 50
A **beautiful and luxurious blend of premium essentials oils**. **Skin Firming and relaxing properties** with the benefits of pure rose for general massage and breast firming massage. Other uses: natural perfume, manicure & pedicure scrubs and for a fragrant bath.

PURIFYING JUNIPER with Juniper, Cypress & Grapefruit | SCMCPJ10 / 50
To cleanse and purify. Contains essential oils to benefit **toning and slimming treatments** and to **detoxify**. Use with lymphatic drainage massage and for slimming, toning and stimulating treatments.

A close-up, high-angle photograph of a person's back and shoulders. Two hands are placed on the person's shoulders, suggesting a massage. The person is lying on a white towel or sheet. The lighting is soft and natural, creating a calm and relaxing atmosphere. The background is slightly blurred, focusing attention on the hands and the person's skin.

massage oils

Biossentials Spa Collection Professional Massage Oils have been formulated by Aromatherapy experts to deliver the benefits of essential oils for a range of situations. 100% pure and natural, each massage oil contains specially selected essential oils and cold pressed carrier oils to soothe, hydrate and enhance skin texture. Well absorbed with a non greasy effect.

Each ready to use body oil contains a blend of 100% pure and natural essential oil concentrates blended in a base of easy wash premium carrier oil to complement the body care professional.

- Available in 1litre packaging
- Also available in 100ml size retail packaging

BALANCE | SCMBBAL1L
with Bergamot, Clary Sage & Geranium

Balance blend contains essential oils traditionally used to **balance** and **harmonise**. For PMS, painful periods, fluid retention, menopause massage into tummy area or use for a relaxing and soothing general massage.

BODY TONE | SCMBBOT1L
with Black Pepper, Fennerl & Grapefruit

Contains essentials oils traditionally used for their **warming**, **stimulating** and **skin toning** properties. Use along with proper nutrition and exercise to tone and firm orange peel skin. Massage daily. May alternate with Circulation body oil.

JETLAG / CIRCULATION | SCMBCIR1L
with Cajeput, Cypress & Petitgrain

Use with massage for sluggish circulation, congestion and after air travel. Contains essential oils traditionally used with massage as a **lymphatic** and **circulatory stimulant** and **decongestant**. Use with lymphatic drainage massage.

SPORTS RUB / REVIVE RUB | SCMBMUS1L
with Nutmeg, Rosemary & Tropical Basil

Bring **warming comfort** to general aches and pains with a soothing massage. Contains essential oils traditionally used for **temporary relief** of **muscular tension**. Massage well into affected area.

RELAX | SCMBREL1L
with Lavender, Mandarin & Patchouli

For **general well-being**. **Soothing** and **calming properties** reflect the traditional qualities of true lavender to encourage relaxation and serenity. Nurturing and grounding properties balance and refresh the spirit.

LEMONGRASS & PEPPERMINT | SCMBLGP1

Stimulating · Refreshing · Cooling
Lemongrass and Peppermint Massage Oil with its fresh and uplifting natural aromatherapy actions is stimulating, refreshing and cooling to the body. This combination of pure essential oils has traditionally been used to boost energy and, with actions of massage, improve circulation, bring relief to aches and pains, awaken the senses and recharge the body.

Contains Sunflower, Soya Bean and Coconut carrier oils blended with 100% pure essential oil of Lemongrass and Peppermint.

LAVENDER | SCMBLAV1

De-stress · Relaxing · Calming
An ever-popular aroma, Lavender Massage Oil with its gentle actions is generally safe to use for children, adults and the elderly. Lavender is traditionally used to help calm and relax the body and mind with its soothing, floral fragrant scent. An excellent oil of choice to soothe the skin after too much time out in the sun.

Contains Sunflower, Soya Bean and Coconut carrier oils blended with 100% pure essential oil of Lavender.

carrier oils

Biossentials Spa Collection Cold Pressed Carrier Oils have superior nutritive and moisturising qualities. The low heat extraction process ensures every plant oil retains its natural vitamin, nutrient and anti-oxidant properties to enhance the healing benefits when combined with pure essential oils.

ALMOND SWEET OIL | SCVOALMP1L / 5L / 10L

An excellent carrier oil for face and body massage. Exceptional emollient properties, softens, reconditions and moisturises the skin. Good for irritated, chapped or dry skin.

- Available in professional 1ltr, 5ltr & 10ltr pack sizes

VIRGIN COCONUT OIL | SCVOCOCVIL1L

Extracted using traditional methods to ensure maximum benefits for beauty, health and balance. Does not clog pores. Widely used in hair and skin care. Blend with other carrier oils for massage.

- Available in professional 1ltr pack size

GRAPESEED OIL | SCVOGRA2L

A light, well absorbed general massage oil high in linoleic acid and some Vitamin E. Astringent qualities useful for oily skin. Suitable for all skin types.

- Available in professional 1 ltr and 5ltr pack size

COCONUT REFINED OIL | SCVOCOCR1 / 5 / 10

Expellar pressed with additional processes to give it a light texture, low odour profile and high resistance to rancidity. It is perfect for massage, hair and beauty applications.

- Available in professional 1ltr, 5ltr & 10ltr pack sizes

JOJOBA OIL | SCVOJOJ100 / 1L

A light, pure liquid wax rich in Vitamin E that closely resembles the skin sebum. Excellent skin care properties with a long history of use to help nourish and protect skin and hair from the elements.

- Available in professional 100ml & 1ltr pack sizes

ROSEHIP OIL ORGANIC | SCVOROS100

Very high in EFAs which are found useful to assist dry, irritated and weathered skin. It has been used for scars, burns and stretchmarks and may be beneficial to improve the appearance of fine lines and wrinkles.

- Available in professional 100ml pack size

SESAME OIL | SCVOSES1L

An important aspect of Ayurveda. Its properties have been recognised for thousands of years and are particularly popular in India. It is easily absorbed and rich in antioxidant properties, vitamins and minerals.

- Available in professional 1ltr pack size

SOYA BEAN OIL ORGANIC |

SCVOSOYO1L / 5L / 10L

Soya bean cold pressed has exceptionally high levels of natural vitamin E, lecithin and omega 3 essential fatty acids. It absorbs well into the skin and is beneficial for all skin types.

- Available in professional 1ltr, 5ltr & 10ltr pack sizes

blended carrier oils

EASY GLIDE MASSAGE OIL

SCVOEG1L / 5L / 10L

The perfect carrier oil for massage

EASY GLIDE MASSAGE OIL is the perfect carrier oil for massage. It provides a superior slip and glide with a light, non-greasy feel. This massage oil contains a special combination of nourishing vegetable carrier oils selected for their light texture and antioxidant properties to benefit the condition of the skin during massage or when used as a moisturising body oil. Its eco-friendly formula enables easier washing for your towels and linens.

Suitable for all skin types. Add your selected Biossentials pure essential oil or blend to create a personalised and targeted therapeutic massage oil.

Contains: Caprylic / Capric Triglycerides, Sunflower Oil, Soya Bean Oil, Coconut Refined Oil, Laureth-4, Vitamin E

• Available in professional 1L, 5L and 10L

EASY WASH MASSAGE OIL

SCVOEASY1L / 5L / 10L

Easy to clean water dispersible carrier oil

EASY WASH MASSAGE OIL is one of our top selling massage oils. Easy Wash is created to help eliminate smelly or stained linens and uniforms. It contains cold pressed carrier oils and a vegetable derived water dispersant to enable easier washing. What's more, Easy Wash is friendly to our waterways and marine life.

With nourishing and moisturising qualities, this massage oil leaves a smooth, non-greasy finish on the skin and blends well with essential oils. It is suitable for all skin types.

Contains: Soya Bean Oil, Sweet Almond Oil, Sorbitan Trioleate, Wheat Germ Oil, Jojoba Oil, Rosehip, Vitamin E

• Available in professional 1L, 5L and 10L

1 5 ultrasonic aroma diffusers

Create a healthy and relaxing aromatic environment in your spa, salon, business or home with Biossentials 100% natural essential oils and our new multi functional **Ultrasonic Aroma Diffuser**.

The heat-free aromatherapy diffusers use ultrasonic vibrations (up to 2.5 million vibrations per second) to instantly break down essential oils and water into tiny micro-particles dispersing them into the air in a fine aromatic mist. The mist penetrates the air more effectively, is absorbed more easily and optimises the therapeutic benefits of Biossentials pure essential oils.

The Benefits of Ultrasonic Diffusion include: Immediately creates a natural aromatic atmosphere

- Purifies the environment and minimises pollutants
- Heat-free for greater therapeutic benefits
- Moisturises the skin from drying effects of air conditioning
- No candles, quiet, safe and effective
- Auto shut off when waterless
- Calming mood light options to create the ambience you desire.

PROFESSIONAL DIFFUSER

VDPROLM168

facial care collection

NEW &
IMPROVED
certified organic ingredients

Biossentials Aromatherapy Facial Treatments with certified organic ingredients utilise the intrinsic healing powers of nature to benefit a wide range of skin types. Every facial care product in the professional range is easily personalised to provide a multitude of natural treatment possibilities. What's more, Biossentials 'fresh is best' philosophy minimises loading the skin with unnecessary harsh chemicals, artificial preservatives and stabilising ingredients found in most ready-to-use products.

Pure essential oils and botanicals rich in phytonutrients contain enzymes, vitamins, anti-oxidants and minerals that work together in perfect synergy to energise skin cells, stimulate circulation, enhance elimination and encourage regeneration.

A full range of retail products are available for daily home use to enhance the benefits of Biossentials salon treatments.

NOT TESTED

92.9% CERTIFIED ORGANIC INGREDIENTS
SCFCEHFBOILO30

Aromatherapy facial essence for oily or combination skin is formulated to **tone, refresh and encourage** a glowing skin that is **refined and clear**. Actives: **Spike Lavender** to tone and nourish, **Bergamot** to balance sebum production, **Thuja Oil** with soothing and astringent properties, **Mandarin** reduces oily skin. Plus Organic Jojoba & Apricot Kernel oils with Vitamin E to moisturise and rejuvenate the skin.

SENSITIVE SKIN
91.3% CERTIFIED ORGANIC INGREDIENTS
SCFCEHFBSENO30

Aromatherapy facial essence formulated for sensitive skin to **effectively calm and soothe** irritation, redness and reactive skin. Actives: **Chamomile** soothing and nourishing, **Lavender** gentle non aggravating comforting and supporting properties, **Australian Sandalwood** calms irritation. Plus Organic Jojoba & Avocado Oils and **Calendula** to hydrate, nourish and soften.

facial care

Biossentials Spa Collection French Clay Masques are active in minerals to cleanse, tone and revitalise the skin. Mineral depleted and stressed skin is often dry, tired and sluggish. French clays are a superfine quality for natural skin care. Used for centuries for their therapeutic benefits, clays are especially suited for face and body masques.

For vibrant, customised Aromatherapy facial treatments, combine selected clay masque with Biossentials Essential Harmony Facial Essences, Pure Floral Waters and other skin friendly natural ingredients. See and feel the difference with chemical free beauty care.

- Available in salon pack containers of 225gm and 450gm

GREEN CLAY MASQUE

SCFCGCLAG225 / 450

has a high percentage of trace elements with **powerful cleansing properties** that **draw** accumulated **impurities** and **toxins** to the surface. Its exfoliating, astringent and purifying effect at the cellular level benefits all skin types but more specifically for oily, acneic and combination skin.

PINK CLAY MASQUE

SCFCCLAP225 / 450

has been traditionally used for its **toning** and **firming effects**. Suitable for sensitive and fragile skin, pink clay softens and **refines** the **texture** of the skin. Also useful as a body masque and for toning and firming areas such as bust, thighs, stomach and upper arms.

RED CLAY MASQUE

SCFCCLAR225 / 450

is an oily, mildly absorbent clay with a **high silicon** and **iron oxide** content that has been traditionally used to **enhance the skin's condition** and appearance. Most suitable for couperosed, mature, post acneic, dehydrated and tired, stressed skin. Also useful for broken capillaries, bags under the eyes and for general skin care.

WHITE CLAY MASQUE

SCFCCLAW225 / 450

is the **least drawing** of the clays, suitable for **very sensitive** and **young skins**. Improves appearance and texture of the skin. An excellent substitute for use with babies instead of talc. Also useful for absorbing odours and as a hair mask.

enzymatic facial masque

SCFCEFM225 / 450

Enzymatic facial masque with bentonite and **natural fruit enzymes of papain and bromelain**. Both natural proteolytic enzymes have properties that digest the binding proteins of dead skin cells found on the upper layers of the stratum corneum. The **gentle exfoliating properties** of the enzymatic masque **encourages skin renewal** and leaves the skin soft and revived with a bright, fresh feeling.

- Available in 250gm and 500gm

kaolin

SCFCEML1KG

Kaolin, also known as white clay, is **very absorbant** and has been widely used for facial and body care throughout the ages. **Rich in minerals** including silica, iron, magnesium, calcium and zinc. Especially useful in facial, body and hair masque treatments.

- Available in 1kg salon pack

marine treatments

Biossentials Active Marine Body Treatments contain micronised natural algae and marine muds to benefit the body. Sourced from France, each marine treatment equilibrates skin tissue, provides essential trace elements and micro-nutrients and boosts lymphatic activity.

The Pristine sea world reveals a marine life rich in essential elements to restore, harmonise and balance. Nutrient rich algae sea weeds contain powerful trace elements and nutrients that benefit detoxification, slimming, firming and other health treatments. Thalassotherapy, Fangothérapie, Balneotherapy and other internationally acclaimed therapies are based on the use of natural marine elements. Easy to apply, each mask readily washes off in water. For additional Aromatherapy benefits, Biossentials pure essential oil blends may be added into the mask prior to application.

• Available in 500gm and 1kg sizes

MICRONISED MARINE ALGAE MUD MASK with Pure Marine Algae & Marine Mud

SCBCAMM500 / 1KG

Micronised marine algae and marine muds are especially rich in calcium, magnesium, trace elements and other micro nutrients which result from the high minerality of sea water, Studies demonstrate the detoxification powers of marine muds. Well known in thalassotherapy to soothe general aches and pains, activate circulation and sluggish metabolism and for general well-being.

Blends well with Biossentials Purifying Juniper, Body Tone or Circulation Blends.

BODY TONE MARINE BODY PACK with actives Fucus vesiculosus, Laminaria digitata & Lithothamnium

SCBCSBP500 / 1KG

The combination of Fucus a brown algae from Finistere widely used in thalassotherapy care, Lithothamnium a red fragile seaweed from the Breton coasts containing numerous marine and trace elements and Laminaria a brown seaweed from Brittany increase the slimming action during treatment. Laminaria provides iodine needed for the regulation process whilst Fucus and Lithothamnium assist to increase elimination & cleansing.

Blends well with Biossentials Purifying Juniper, Body Tone or Circulation Blends.

NATURAL SLIMMING TREATMENTS WITH BIOSSENTIALS

Create effective and natural aromatherapy slimming treatments with Biossentials.

Refer to Professional training manual for further information.

1. Combine marine masks with Biossentials pure essential oil blends to enhance the results. Consider Body Tone, Circulation or Purifying Juniper Blend. Alternatively, create a personalised blend to suit your clients needs. Blend 6-8 drops of pure essential oil blend into the mask and mix well prior to application.
2. Exfoliation scrubs effectively remove dead skins cells to ensure optimal benefits from the marine mask. It is recommended to include skin exfoliation or dry brushing in your slimming and detox treatments.
3. Steam bath assists in the elimination and detoxification process. Allow 10-15 minutes in the steam bath prior to application of scrub and mask.
4. The use of slimming equipment or heat blanket can accelerate the results.
5. Massage is an important part of any slimming treatment to enhance circulation and lymphatic drainage.

A woman with her hair pulled back, eyes closed, and a serene expression, holding a dark wooden bowl filled with red and white flowers. She is wearing a black strapless top with a gold and blue pattern. The background is a large, light-colored wooden wheel with a radial pattern.

 Biossentials

urutan malaysia/traditional massage oil

SCTCMBUMI100R / SCTCMBBUM1

with *Pandan infused Coconut oil with essential oils of Lemongrass, Kaffir Lime, Ginger and Rosemary.*

Warming, Stimulating & Uplifting. Readily absorbed and non-greasy. Leaves the skin nourished and moisturised.

Biossentials Urutan Malaysia Traditional Massage Oil with pandan infused coconut oil, pure essential oils of kaffir lime and lemongrass with a hint of ginger is the perfect 'ramuan' of botanicals inspired by the local flora of tropical Malaysia. This massage oil is formulated to enhance inner and outer wellness – a totality that is eminent in the Asian culture.

Allow your guests to experience the holistic benefits of natural age-old traditions as it invigorates, uplifts and energises body and mind.

Available in 1 Litre, provides approximately 35 body treatments, or 100 hand or foot treatments.

INGREDIENT LIST

Cocos nucifera (Coconut) oil, Cymbopogon flexuosus (Lemongrass) oil, Citrus hystrix (Kaffir lime) oil, Zingiber officinale (Ginger) oil, Pandanus amaryllifolius (Pandan) leaf and Rosmarinus officinalis (Rosemary) leaf extract.

tropical spa body treatments

Create nurturing spa rituals with Biossentials Tropical Spa Body Treatments inspired from longstanding traditions passed down through generations. Each treatment is created from handpicked tropical botanicals, carefully grown, harvested and processed in small batches for optimum freshness and meticulous quality standards. To create a traditional body scrub or wrap simply add floral water, hydrating oils and blend well creating a smooth paste.

- Professional 1kg salon pack size
- Each 1kg equals approximately 20 body treatments. Tropical body products are sealed in air tight foil packaging to ensure vibrant freshness

LULUR TRADITIONAL BODY TREATMENT | SCTSLULURPG1KG with Turmeric, Vetiver & Pandanus

Stemming from the traditional jamu herbal practices of Indonesia, the regal Javanese Lulur is a conditioning body treatment that softens, refines and revitalises skin texture leaving it smooth and silky with a healthy glow. Lulur is also reputed to have relaxing and cleansing properties. With Vetiver and Pandanus for relaxing effects, Turmeric and Citronella for cleansing and soothing, Sepang Wood to deodorise and tone whilst ground rice acts to gently exfoliate and smoothen the skin. Combine with herbal bath, milk bath or yoghurt wash for optimum effect.

BOREH TRADITIONAL BODY TREATMENT | SCTSBOREHPG1KG
with Clove, Nutmag & Cinnamon

Boreh body treatment with exotic spices has a stimulating and warming effect to bring comfort to body aches and pains. So it's no surprise that next to Lulur, this is the most popular and longstanding traditional treatment evoking a wonderful warm soothing sensation. Boosting circulation and revitalising skin tone, Boreh with its rich exotic spicy scent and soothing properties has evolved into a favorite spa treatment. Especially recommended for those who have been active the whole day and need to relax.

COFFEE TRADITIONAL BODY TREATMENT | SCTSCOFFEEPG1KG
with Borneo coffee, Ginseng & Cassia Leaf

Biossentials richly fragrant revitalising herbal coffee scrub with Tongkat Ali and Ginseng originates from the exotic island of Borneo. Coffee is rich in anti-oxidants, natural fruit acids and caffeine. The synergy achieved when combined with the stimulating effects of Tongkat Ali and Ginseng tone and exfoliate tired skin leaving it soft, smooth and glowing. Especially useful for cellulite prone areas such as buttocks and thighs, Coffee Scrub stimulates circulation and energises the skin. Enjoy the heavenly aroma as you cleanse, re-energise and invigorate the body.

MOCOCA BORNEO BODY WRAP | SCTSMOC1KG
with Borneo Cocoa, Coconut Milk & Ground Rice

Biossentials signature Mococa Borneo Body Wrap with intoxicatingly delicious cocoa, coconut milk and coffee, provides soothing nourishment to the skin whilst delighting the senses. Theobroma Cocoa with anti-oxidant and calming properties contains a rich source of vitamins and minerals. Known as the 'Food of the Gods' by the ancient Mayans. Cocoa has a long history of traditional use. Hydrating and calming to irritated skin conditions this richly smooth body wrap leaves a soft delicious fragrance. Sourced from Borneo's richly diverse plant kingdom, Mococa body wrap is the ultimate tropical spa experience.

Body treatments are at the heart of the Spa experience. Biossentials Tropical Spa Body Treatments are inspired by age-old traditions to keep the skin healthy and radiant. Each treatment is an infusion of handpicked tropical botanicals with guaranteed optimum freshness and meticulous quality standards. Each traditional treatment contains the skin refining benefits of exfoliating ground rice, a well known asian beauty secret to keep the skin smooth and soft.

To create a body scrub or wrap, simply add floral water or plain water to the product and blend well, creating a smooth paste. For added hydration carrier oils and fragrance free organic moisturising lotion will enhance the treatment.

COCONUT & VANILLA BODY TREATMENT |
SCTSCVBW1KG

with Coconut, Vanilla & Glutinous Rice

thai herbal treatments

Thai Herbal Treatments has been practiced for centuries utilising local knowledge of various tropical plants and their specific benefits. The complex blend of herbs found in these treatments have been traditionally used to relax the body and mind and soothe sore and over-worked muscles while at the same time helping to invigorate the skin and boost energy levels.

The traditional herbs used in Biossentials Thai Herbal Treatments are **grown** in community based self supporting initiatives situated in northern Thailand. We support and practice fair trade. Spread over 1600 acres of hills infused by pristine mountain air, the herbs are cultivated using **farming methods**. The harvested herbs are carefully processed using high tech drying equipment to maintain the therapeutic goodness and vibrancy of the herbs. Each product is vacuum packed to ensure optimum freshness. The Thai Compress is endorsed by the Thai Government to be an authentic Thai spa product.

THAI HERBAL COMPRESS FOR BODY SCTHCOMP/L

THAI HERBAL COMPRESS FOR FACE SCTHFCOMP

Thai herbal compress massage is a truly unique experience. The benefits of moist therapeutic heat from the hot herbal compress provides a soothing and calming effect to muscle tension. As the herbal compress is pressed repeatedly onto the skin naturally occurring essential oils are released and readily penetrate into the skin thus helping to relax tense muscles and assist in improving circulation. Body compress contains Thai herbs including: Tumeric, Lemongrass, Kaffir Lime, Tamarind, Acacia Leaf.

- For Body: Thai Herbal Body Compress - Vacuum packed
- For Face: Thai Herbal Face Compress - Vacuum packed

spa services

BIOSSENTIALS SPA CONSULTING AND PROFESSIONAL SERVICES

Our industry experience and insights together with a passion for excellence assists to deliver unique and inspired spa environments that reflect health and wellness thru a fine balance of eastern and western philosophies. Our dedication to work closely with nature creates inviting and unique spa experiences thru a customised and holistic approach to spa treatments and services. In each working relationship, no matter how large or small, we ensure a high level of professionalism and commitment together with a personalised, friendly and flexible approach.

For **new spa concepts**, we believe collaboration is an important part of the process for a successful outcome. We work closely with spa owners and operators starting from initial design concept through to project completion including:

- Spa concept creation
- Detailed design and finishing
- Treatment development
- Spa equipment selection
- Menu & product creation
- Staff training & procedures
- Spa operations & management
- Spa financial considerations
- Retail products & branding
- Marketing, sales, PR
- Spa collaterals
- Support materials

For **established spas**, our inspired and innovative approach revitalises and reinvigorates operations. A series of review and evaluation assessments are carried out to determine the requirements needed to meet management objectives. Information is reviewed, evaluated and collated. A strategic report follows that outlines observations, recommendations and strategies including time lines to achieve the desired results.

PRODUCT DEVELOPMENT

The products utilised in spa treatments play an important role for the wellbeing of guests and staff as well as quality of service provided for an exceptional spa experience.

Developed by health professionals for the professional spa industry, Biossentials provides a range of professional spa products and services to leading hotels, spas and wellness centres around the globe. Our passion for nature is reflected in every product in our range. We realise that each property has its unique requirements and needs and the strength of our multi-functional and diverse range is the personalised and unique spa menus and options that can be created. In-house aromatherapy & product development experts also provide signature scent and product development for our clients.

TRAINING

We believe people are the most important part of the guests spa experience.

- Excellence in training is our passion.
- Staff training is our number one priority customised to individual spa situations.
- Pre-operational environments require adaptability, flexibility and understanding.
- Maintaining excellence in training throughout the pre-opening period is vital to a successful spa opening.
